Introduction...

All rosette companies say they are different but we prefer to show you how we are different. In a world where everything seems to be online we think that actually having a catalogue showing our rosettes in all their glorious and colourful detail, a catalogue that can easily be taken to committee meetings and passed around for approval or shown to friends and colleagues for discussion, is a step forwards. Of course, you may have chosen to download this from our website but if you would like a printed copy please do get in contact.

This catalogue is divided into four sections. In the first section you will find our premiere range of rosettes. These are special designs that are unique to us as a company. These rosettes include both centre and tail print. In the second section you will find our standard range of rosettes. These are the type of rosettes that everyone envisages when they think of a rosette and are typically used for things like placings or clear rounds. These include centre printing. There is no difference in quality between the two ranges, only in the types and styles. All rosettes are handmade in the UK and as they are made to order you can have any rosette in any colour or combination of colours.

In the third section of the catalogue you will find basic and premiere sashes. In the final section you will find information about ribbon colours, special printed ribbons, other information and terms and conditions.

We hope that you will find what you are a looking for in this catalogue but if not we are here to help so please do not hesitate to ask. If you require something different we can design something unique for you at no extra cost. We do not have a minimum order so if you need just one rosette you can order just one rosette, although discounts do of course apply to larger orders. For prices please see our separate price list.

Rosettes...

Premiere Range
